

# Information for the Isabelle Developers Workshop

## Version 2

Dear Participant of the Isabelle Developers Workshop,

We are very happy that you participate in the Isabelle Developers Workshop. The workshop will be a *first*, in that it consists of hands-on tutorials about programming in Isabelle. There will also be ample time to talk to Isabelle developers. The workshop will take place at the Campus in Garching, which is situated outside of Munich and is reachable by public transportation. In the following, we will provide you with some useful information about the workshop. For information about your arrival and stay in Munich, please consult the separate notes for the main conference. If you have any questions which are not answered herein, please do not hesitate to contact us.

Have a safe journey, and see you soon in Munich!

The Isabelle Developers

# 1 Workshop Venue

The workshop will be held in the Computer Science Building of the Technical University Munich (the main entrance is shown below).

We reserved the rooms *Church* and *Zuse*. There will be signs that will guide you from the main entrance of the building to these rooms. A map of the campus and travel information are given at the end.

## 2 Tutorials and Schedule

Tutorials will start at 9:15 and end in the early afternoon, with many long breaks in between. The idea is that you can talk to the developers in the free time. Do not be shy and just ask them anything you like! Assume it is a one-chance-in-a-lifetime to be in a dedicated environment for learning Isabelle programming.

It is advisable to bring your own laptop to the tutorials. We will prepare some files with which you can immediately start to play and to further explore the Isabelle code.

A detailed schedule can be downloaded here

<http://tphols.in.tum.de/isabelle-schedule.pdf>

## 3 Material

If you want to have a rough idea what kind of material will be presented during the tutorials or want to do some advance preparation, please feel free to have a look at the latest draft of the Isabelle Programming Tutorial available from

<http://isabelle.in.tum.de/nominal/activities/idp/>

If you can give us feedback for improving this tutorial, we will be very grateful.

## 4 Access to the Building

On Thursday, August 13th, and Friday, August 14th, the Computer Science Building will be open during normal hours. On Saturday, August 15, you might have to ring the porter, since that day is a public holiday in Germany. The porter will let you in.

## 5 Coffee and Lunch Breaks

Coffee will be provided. Lunch will be at the near cafeteria. More information will be given at the workshop. For dinner you will be on your own. However we hope to make impromptu arrangements to go to restaurants or beer gardens either nearby or in Munich.

## 6 Internet Access

During the workshop free Internet access is provided in room *von Neumann* (ask for directions). The Internet access is cable based. Cables will be available.

## 7 Travel and Tickets

The Computer Science Building is at the Campus Garching, which is located in the North of Munich reachable by Underground (called in German **U**-Bahn) line number U6. The stop is *Garching Forschungszentrum*, which is the terminal stop on this line. In the map below this stop is highlighted blue on the top of the page (near the airport sign).

[http://www.mvv-muenchen.de/web4archiv/objects/download/3/schnellbahnnetz\\_2009.pdf](http://www.mvv-muenchen.de/web4archiv/objects/download/3/schnellbahnnetz_2009.pdf)

Please print out a copy of this map!

Assuming you stay at the conference hotel Novotel, in order to get to Campus Garching you have to go to the train station *Rosenheimer Platz* and take any **S**-Bahn in the direction of the city centre / main train station. Get off at *Marienplatz* (that is two stations after *Rosenheimer Platz*). At *Marienplatz* you have to change. Follow the **U**-sign to line number U6. You need to take the U6 to its terminal stop *Garching Forschungszentrum*. The destination is written outside on the train and also on the electronic boards at the platform. Note that only every second train of the U6 goes to *Garching Forschungszentrum*. The journey from *Rosenheimer Platz* to *Garching Forschungszentrum* takes about 35 mins. From the terminal station to the Computer Science Building is only a short walk.

### 7.1 Purchasing Tickets

Before taking the train, you have to purchase and validate your ticket. Since you are going to Garching in the morning and come back to the hotel in the evening, it is strongly advised to

buy each morning a Single Day-Ticket XXL, which is valid for the central parts of the network (you cannot use it to go to the airport for example).

- Single Day-Ticket XXL (*Single Tageskarte XXL*), valid for the whole day, price €6.70

Tickets can be bought from ticket machines (shown below) at every station. The machines take coins and small bank notes. They give change.

## 8 Map of Campus Garching

Map of Campus Garching: the Computer Science building is highlighted in bright red and the main entrance is the bright red spot.
