

This is to certify that

Christian Urban

was nominated for a
King's Education Award 2024

April 2024

King's College London

I think Dr. Christian has done an incredible job in teaching us all about compilers and formal languages. I am extremely grateful to have been introduced to such incredible concepts with that much elegance. During this module, I had the deepest philosophically technical challenges after my industry year in a cybersecurity startup, which clarified even further my future path in my career. Feeling honestly sorry for anybody who did not get a chance to go through this module!
